DoD 4000.25-M  
Change 2

IN REPLY  
REFER TO DLMSO

JUN 17 2005

## FOREWORD

Department of Defense (DoD) 4000.25-M, The Defense Logistics Management System (DLMS), is published/changed by the direction of the Deputy Under Secretary of Defense (Logistics and Materiel Readiness) (DUSD (L&MR)) under the authority of the Department of Defense Directive 4140.1, Material Management Policy. It consists of five volumes: Volume 1, Concepts and Procedures; Volume 2, Supply Standards and Procedures; Volume 3, Transportation; Volume 4, Acquisition; and Volume 5, Finance. The manual provides policies, uniform procedures, and electronic data interchange standards for conducting DoD logistics business processes implemented under the DLMS. The DLMS is the linchpin of logistics systems standardization and modernization, both for business processes and data interchanges, within the DoD and with industry.

The provisions of the manual are effective when published for implementation planning and for systems development. The provisions apply to the DoD and, by agreement, to external organizations conducting logistics business processes with the DoD. The current Defense Logistics Standard Systems (DLSS) procedures will be accommodated in accordance with [USD \(AT&L\) Memorandum, "Migration to the Defense Logistics Management Stands and Elimination of the Military Standard Systems", December 22, 2003](#).

This is a procedural change to DoD 4000.25-M to incorporate all Approved DLMS Changes (ADCs) 1 through 157 and ADCs 159 through 161, 164, and 166 in Volume 2. Unless otherwise noted, revised text is identified by ***bold italicized*** print. Additionally, administrative changes were made to update sections such as the Table of Contents and to comply with DoD 5025.1-M formatting requirements.
