MEMORANDUM FOR: SUPPLY PRC MEMBERS

SUBJECT: Approved DLMS Change 48A, Addendum for Revision to DLMS Supplement:
Material Release Order (Supply/MILSTRIP)

This addendum provides a revision to the DoD 4000.25-M, Defense Logistics Management System (DLMS), modifying the DLMS Supplement (DS) 940R, Material Release Order. This change is to be incorporated with Approved DLMS Change 48 during implementation. This change is required to support continued logistics operation in a DLMS/DLSS environment.

The DLMS Supplement will be posted to the DLMSO web site (<http://www.dla.mil/j-6/dlms/ICs/Default.htm>) immediately upon coordination/approval of the governing Federal implementation conventions (ICs) from the DoD Logistics Functional Working Group (LFWG), the DoD Electronic Data Interchange Standards Management Committee (EDISMC), and the Federal EDI Standards Management Coordinating Committee (FESMCC). Additionally, the revised DS will be provided for implementation planning on the above web site pending Federal approval.

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert, Co-Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or email: ellen_hilert@hq.dla.mil or Ms. Vermella Saváge, DoD MILSTRIP System Administrator, 703-767-0674, DSN 427-0674, or e-mail: vermella_savage@hq.dla.mil. Others must contact their Service or Agency designated representative.

Approved Change 48A
Addendum for Revision to DLMS Supplement:
Material Release Order

1. ORIGINATOR: Supply Process Review Committee, Ellen Hilert, Co-Chair, DLA J673, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen_hilert@hq.dla.mil

2. FUNCTIONAL AREA: Supply

3. REFERENCE: DLMSO memorandum, Approved DLMS Change 48, Revisions to DLMS Supplements: Material Release Order and Material Release Advice (Supply/MILSTRIP), December 12, 2001

4. REQUESTED CHANGE:

a. Title: Addendum for Revision to DLMS Supplement: Material Release Order

b. Description of Change: This change modifies the DLMS Supplement (DS) 940R Material Release to add an additional data element to support lateral redistribution orders. Apparently, this data element was inadvertently dropped during development of the LRO under DLMS. The DLSS field legend identifies the data element as “Date of Receipt of Demand.”

c. Procedures: Revise DLMS Supplement for 940R, Material Release as follows.

#	Location	Revision	Reason	Federal IC
1	2/G6201/0900	<u>Add new qualifier and associated note:</u> LD Last Demand DLMS Note: Use for LRO to identify the date of receipt of the demand document as recorded in that document by the initial recipient in the supply distribution system	Provides functionality available under current DLSS and is required to support DLSS-DLMS conversion	Add new code Requires Federal IC change prior to DS update

d. Alternatives: None identified.

5. REASON FOR CHANGE: This change supports DLMS implementation and desired functionality. The missing data element was identified during testing of conversion processing. This date was added to the LRO function to support logistics response time metrics and identification of delays in processing the original requisition.

6. ADVANTAGES AND DISADVANTAGES:

- a. Advantages:** Supports DLMS implementation
- b. Disadvantages:** None identified

7. IMPACT:

a. Publications. Federal Implementation Conventions 940R and corresponding DoD 4000.25-M DLMS Supplement. The DS revision requires prior change to the Federal Implementation Convention (IC). All applicable revisions will be submitted to the Federal IC

b. DAAS DLMS/DLSS conversion map has been modified to incorporate above revision.
