MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE MEMBERS

SUBJECT: Proposed Addendum to Approved Defense Logistics Management System (DLMS) Change (ADC) 167A, New Transaction Originator Code (TOC) Designating DoD E-Mail for use in DLMS Supplement (DS) 888W, Weapon System Data Change (Supply)

We are forwarding the attached revised proposed change to DoD 4000.25-M, Defense Logistics Management System (DLMS), for evaluation and submission of a single coordinated Component position. The interface requirement relating to this proposed change is shown to assist in your internal coordination. However, omission of such a requirement does not relieve you of the responsibility to assure full coordination of the proposal within your Component.

Request you review the attached proposed change and provide your comments/ concurrence to DLMSO **not later than 21 days from the date of this memorandum**. If non concurrence is provided, please provide an alternate method to meet the requirement being addressed.

Addressees may direct questions to the DLMSO point of contact Ms. Ellen Hilert, email: [Ellen.Hilert@dla.mil](mailto:Ellen.Hilert@dla.mil). Others must contact their Component designated Supply Process Review Committee representative.

DONALD C. PIPP  
Director  
Defense Logistics Management  
Standards Office

**PDC Addendum to ADC 167A**  
**New TOC Designating DoD E-Mall for use in DS 888W, Weapon System Data Change**

**1. ORIGINATING SERVICE/AGENCY AND POC INFORMATION:**

- a. **Service/Agency:** Defense Logistics Agency (DLA)
- b. **Originator:** DLA J-3314 DSN 427-1612

**2. FUNCTIONAL AREA:**

- a. **Primary/Secondary Functional Area:** Supply/Logistics
- b. **Primary/Secondary Functional Process:** EMALL

**3. REFERENCES:**

- a. DLAM 4140.2, Supply Operation Manual, Vol II Part 3, Appendix A-22
- b. DLMSO Memorandum dated June 13, 2005, subject: Approved DLMS Change (ADC) 167, Component Unique Data Content within DS 888W, Weapon System Data Change.

**4. REQUESTED CHANGE:**

a. **Description of Change:** This change provides a new value for the Transaction Origination Code (TOC) to be recognized on DLMS transactions associated with the Weapon Systems Support Program (WSSP) as indicating that the transaction originated within DoD EMALL. This change is an addendum to approved procedures documented under ADC 167.

b. **Background:** Currently all transactions coming from WSSP in DoD EMALL have the Routing Identifier(RIC)-From SME assigned to the DLMS Weapon System Data Change (888W/Document Identifier WS1) transaction. When DLA's Enterprise Business System (EBS) reads this transaction and sees the RIC SME, EBS will put RIC-To SME on the responding DLMS 888W (Document Identifier WS3), and the Defense Automatic Addressing System (DAAS) will direct the transaction to EMALL.

c. **Detailed Procedures:** If a new TOC E indicating DoD EMALL was created, EMALL would populate the "E" in the TOC on the WS1 with the correct Military Service RIC as the RIC-From. EBS would correctly post the user's RIC as the RIC-From Service and create the WS3 with the RIC-From on the WS1 as the RIC-To on the WS3 and perpetuate the TOC E. When DAASC receives DLMS 888W/WS3 transactions, an edit would be added so that if the TOC E is present the transaction will be routed to DoD EMALL, instead of routing the transaction to the RIC-To.

Item #	Location	Change Table for 888W, Weapon System Data Change	Reason
--------	----------	---	--------

Item #	Location	Change Table for 888W, Weapon System Data Change	Reason
1.	Introductory Note	- PDC 167A, New Transaction Originator Code (TOC) Designating DoD E-Mall for use in DLMS Supplement (DS) 888W, Weapon System Data Change (Supply)	Identifies DLMS changes included in the DLMS Supplement
2.	2/LIN01/1900	<p><u>Add new code value to list:</u></p> <p><b>LM Case Origin Code</b>  <b>DLMS Note:</b>  <i>Use to indicate the Weapon System Transaction Origination Code (TOC). This is an optional entry identifying the initiation/ origination point of the Weapon Item Data Transaction. An ANSI data maintenance action will be taken to obtain a more appropriate code for use in a future version/release. The following code list is based upon DLAM 4140.2, Supply Operations Manual, Vol II Part 3, Appendix A-22. Available code are:</i></p> <p><i>A – Defense Information Systems Network</i>  <i>B – BRAC</i>  <i>C – Center</i>  <i>E – DoD EMALL</i>  <i>H – Headquarters</i>  <i>P - Provisioning</i>  <i>W- Web-entered by submitting Service</i></p> <p><i>2. Code W is optional to indicate that transaction reflects Service unique data content.</i></p>	To identify initiation/originati on point as DoD EMALL

5. **REASON FOR CHANGE:** To allow DAASC to route the appropriate WS3 to EMALL.

6. **ADVANTAGES AND DISADVANTAGES:**

a. **Advantages:** This will allow transactions coming from WSSP in EMALL to have a unique TOC where DAASC can identify and transmit all transactions with a TOC “E” directly to EMALL

b. **Disadvantages:** None

c. **Alternatives:** DLMSO identified an alternative where by current RIC-From/RIC-To would be unchanged, however an additional RIC value would be added to the DLMS format. This would allow for identification of the submitting Service and would allow routing to EMALL without DAAS intervention.

d. **Planned Implementation Date:** Request implementation as soon as possible.

7. **IMPACT:**

a. **DLMS Data Elements:** Add new code value to Weapon System Transaction Origination Code : E – DoD EMALL.

b. **DAASC:** Establish procedures to open DLMS 888W/WS3 transactions for determination of required routing to DoD EMALL. **Estimated implementation date for DAASC change is requested.**

c. **DLIS:** Revise DoD EMALL procedures to show Military Service RIC as originator and include TOC E on outgoing DLMS 888W/WS1. Revise DoD EMALL procedures to receive incoming DLMS 888W/WS3 with Military Service RI-To and TOC E, and properly post. **Estimated implementation date for DoD EMALL change is requested.**

**d. Publications:**

- (1) DOD 4000.25-M, DLMS, for 888W transaction and DLMS dictionary.
- (2) DLAH 4140.2, Supply Operations Manual, Vol II, Part 1, Chapter 51
- (3) WSSP Chapter of DLA One Book or Customer Handbook, as applicable.
- (4) Implementing procedures.
