Approved MILSTRIP Change Letter (AMCL) 117
Advice Codes, Appendix B15

1. Revise appendix B15, paragraph a to read:

"a. Advice codes are numeric/alphabetic or numeric/numeric and provide coded instructions to supply sources when such data are considered essential to supply action and entry in narrative form is not feasible. The requisition transaction advice codes flow from requisition originators to initial processing points and are thereafter perpetuated into passing actions and Release/Receipt documents. The excess transaction advice codes flow from a Defense Automatic Addressing System (DAAS) facility to an ICP/IMM to indicate that the excess transaction has been edited by DAAS. The method of assigning advice codes and listings of requisition transaction advice and excess transaction advice codes are provided below:"

2. Add the following to the Category Assignments of Advice Codes:

| <u>Card Column</u> | <u>Advice Codes</u> |
|--------------------|---|
| 65 66 | Numeric/Alphabetic |
| 2 1 | through 9 For DLA, inter-Service and General Services Administration transactions. |
| 3 1 | through 9 For DLA, inter-Service and General Services Administration transactions. |
