ATTN: DAAS Administrator

1. References:

- a. DLSSO-M letter, 26 Nov 84, subject: Approved MILSTRIP Change Letter (AMCL) 123B, Requisition Modifier Procedures.
- b. DLSSO-M letter, 4 Apr 84, subject: Approved MILSTRIP Change Letter (AMCL) 123A, Requisition Modifier Procedures.
- c. DoD 4140.17-M, MILSTRIP, 16 Jan 84, as amended.

2. The revised AMCL at enclosure 1 is being issued to correct the following errors in previous versions of the approved change:

- a. Paragraph 2-41b(7) is corrected to indicate the distribution code modification applies only to cc 54 (item 2).

DLSSO-M

Subject: Approved MILSTRIP Change Letter (AMCL) 123C, Requisition Modifier Procedures

b. Item 3 should refer to paragraph 2-41d (not 2-41c).

c. There should be a parenthetical sentence at the end of paragraph 2-41d(2) excluding subsistence requisitions from RDD deletion (item 3).

3. The implementation date remains 1 Nov 85. Other AMCLs scheduled for 1 Nov 85 are 108, 118, 119, 122, 125, 127A and 133.

4. The DLSSO-M point of contact is

DoD MILSTRIP System
Administrator

(2) When the supplementary address (cc 45-50), the project code (cc 57-59), the RDD (cc 62-64), or the advice code (cc 65-66) of the DI Code AM is blank, these fields of the original requisition will be modified accordingly (subsistence requisitions are excluded from RDD deletion provisions)."

4. Add new paragraph 3-56a(2)(c) as follows:

"(c) Requisition modifier documents which contain changes to the supplementary address and signal code fields, in the format shown in appendix C19 (DI Code AMF). Signal code will be indicated in cc 77."

5. Revise paragraph 3-56a(4) to read:

"(4) Supply sources will furnish status to all eligible recipients after processing requisition modifier documents as follows:

(a) When the modifier document contains invalid entries for data elements listed in paragraph 2-41b which would require rejection under requisition edits prescribed in paragraph 3-1a, the modifier request will be rejected by means of supply status (DI Code AE_) with Status Code 07.

(b) When the requisition modifier document is not honored because the requested modifications cannot be made, supply sources will provide supply status with Status Code B2.

(c) When the requested modifications have been successfully processed, supply status with Status Code BK will be provided."

6. Add new paragraph 3-56a(5) to read:

"(5) In addition, when modifier documents are processed, supply sources will provide the latest supply or shipment status in accordance with the M&S code and distribution code."

7. Add a new paragraph 3-56b(4) as follows:

"(4) Storage activities will provide supply status (DI Code AE6) to supply sources when requested modifications are or are not accomplished, citing Status Code B2 or BK."

8. Revise paragraph 6-25d(2) to read:

(2) FMS requisition modifier documents will be initiated in accordance with paragraph 2-41. Entries in the requisition modifier document may differ from those in the original requisition only to reflect changes to one or any combination of the following:

- (a) Media and Status Code, cc 7.
- (b) Country FMS Offer/Release Option Code, cc 46.
- (c) Freight Forwarder Code, cc 47.
- (d) Signal Code, cc 51.
- (e) Fund Code, cc 52-53.
- (f) Distribution Code, cc 54.
- (g) Project Code, cc 57-59.
- (h) Priority Designator, cc 60-61.
- (i) Required Delivery Date, cc 62-64.
- (j) Advice Code, cc 65-66.

9. Delete the following sentence from paragraph 8-1c: "DI Code AM documents containing the expedited handling signal "555" will not be submitted after the effective date of the requested mass cancellation action." Substitute: "The RDD may not be changed to "555" by means of a DI Code AM document submitted after the effective date of the requested mass cancellation; however, modifiers submitted to change other data elements when the "555" RDD has been previously entered must perpetuate the expedited handling signal."

10. Revise the following document identifier code explanation in paragraph f, appendix B1:

<u>"Code</u>	<u>Document Title</u>	<u>Explanation</u>
AMF	Document Modifier (Process only to Change Supplementary Address and Signal Code fields)	From ICP to Procurement Activity. Changes Supplementary Address, Offer/Release Option Code (cc 46) or Freight Forwarder Code (cc 47) in FMS requisitions, and Signal Code."

11. Add the following status codes to Appendix B16, Status Codes:

<u>Code</u>	<u>Explanation</u>
BK	Requisition data elements have been modified as requested. Examine data fields in this status document for current requisition data.
B2	Status of supply or procurement action precludes requested modification.
D7	Requisition modifier rejected because of errors in one or more data elements."

12. Revise cc 77 entry in Appendix C19, Document Modifier (ICP to Procurement), to read:

<u>Field Legend</u>	<u>Card Columns</u>	<u>Entry and Instructions</u>
Signal Code/ Blank	77	Enter signal code as shown in modifier document (for DI Code AMF); or leave blank (for DI Code AMP)."
